**22 April 2013**

### **Update On Avian Influenza A(H7N9) Virus In China**

**IBC Asia** would like to assure our attendees that we and our venue partners are constantly monitoring the updates provided by the relevant health and safety agencies on the current situation in China.

According to WHO's media brief held on the 19 April 2013, there has not been any evidence of sustained person-to-person transmission and it seems that this does not happen easily. WHO does not advise any special screening at points of entry with regard to this event, nor does it recommend that any travel or trade restrictions be applied at this point in time.

The safety and health of our attendees are our priority and our venue partners will be taking the necessary measures and precautions with regards to the event. For the latest update on the situation, visit [www.who.int](http://www.who.int).

If you have further queries, please do not hesitate to contact our customer service team at  
**Tel: +65 6508 2401** or Email: [register@ibcasia.com.sg](mailto:register@ibcasia.com.sg).

Best regards
